Just like the priest killed recently in Wisconsin, Fathe was a signature murder. His body was mutilated in way to tell those in the know, "This was done with us." They still have not found the murderers police said it was probably someone local who knew habits and to whom he would open the door. If as the signature mutilations seem to indicate, they will be found by the police, quote unquote. They "wonâ because they are too highly placed—local architects, doc respectable citizens, but secret Satanists. Faggotry might a into it because Father Kunz was onto their case. In though I don't really know, is that it is more given the characteristic mutilations.
